

1/3/21 Baxley v Jividen

Testing

guarantine 1 to 2 days before ou-

into the testing agree  
release - exit testing agree

CDC define testing to 14 days

guarantine testing - close contact - tested  
3 to 7 days during 14 days  
of known positive  
COVID test at 5 & 12 day

symptomatic - testing  
testing again

serial testing of cohort

screening testing - not vaccinated  
asymptomatic

broad base testing

Virginia has National Guard test  
every 2 mos.

Every facility test random for  
2.5%

ERJ broad base testing now because  
of outbreak

Quarantine - Intake - CDC guidance  
locked in cells followed

Roam around

Locked in cell w/ 24-48 hrs

section

Stay together for 14 days

get 1 hr. out a day

Can't put in ~~strangers~~ new people

some were in for 60 days at Tygart Valley

ISOLATION

Tested positive or symptomatic

Put in separate isolated cells

~~Easter~~

42 people positive - could be in separate section - could be

putting up plastic

can put up trailer in facility

should not be with COVID  
negative folks

positive should not be brought  
back to negative or  
regular cell

should not declare whole  
section isolation

p. 3 CDC Main guidance  
discusses this

Rest in section should now  
be quarantine for close  
contact

Top tier of section  
could be isolated

Medical isolation requires  
full PPE + face mask  
train donning + doffing PPE  
+ fit tested

\*\* Inmate masks - 2 masks on entry & on request

\*\* Cleaning supplies - every day

### Treatment

Update policy - No medical treatment

say there is

Monoclonial Antibodies - agree

Remdesivir - cannot do

Vaccine - Provide more information

- 2 mos. testing after vaccine again -

- stronger effort

- CO vaccine rate low also

## Data Testing - send weekly

Intake testing

Release testing / Transfer

Symp. testing

Broad Base testing

Quarantine testing

weekly # of masks distributed

## Data Quarantine

### Isolation

Information

where planning  
on housing

### # Positive

where quarantine  
taking place

## Data Isolation

Intake quarantine

daily report by cell -

Intake quarantine

monthly  
random sample

Identify units & how done  
Numbers should be less to  
report

Protocol m

lockdown

report on sections and/or  
cell numbers

Monthly call  
w/ planning, DCR  
course, NTS  
course, NTS

Can do additional inspections  
paid for by state
